

Re: Oil City Area High & Middle School service project
Picture by: Cindy Brozeski (below)

The Oil City Area Senior High School and Middle School Student Council held a service project this November. The cause the group selected was for Aubrey's Adventure: Recreating the East End Fountain, which resulted in a fundraising donation of over \$1,400. The Student Council Association held homeroom competitions to spur the donations. Pizza and donut parties were held for the winning students at Thanksgiving time.

Pictured are some of the Student Council Members giving coins and cash to Trenton Moulin, Executive Director of Bridge Builders Community Foundations, John Deemer, Contractor and his granddaughter Aubrey Deemer, for which the fountain campaign is named. This spring the fountain sat idle and in disrepair, but because a little girl told her grandpa that he should fix the fountain, which he did, and with the help from local businesses - it was again flowing proudly by Oil Heritage Week.

Please visit the Facebook page: [Oil City East End Fountain 2012](#) to see pictures of other events that were held for this cause; the Army visiting town and a Bowl-a-thon activity. Donations have been received from as far away as Illinois and Florida. Over \$8,000 has been received so far. The construction cost to build the new fountain is pegged at \$150,000. Grants and future events will be pursued to make the new fountain a reality.
